CASH DISCOUNT PROGRAM

UP TO 90% OF YOUR PROCESSING COST GONE.GUARANTEED

The payment terminal software program for the Cash Discount is designed to encourage customers to pay by cash or gift card. As part of the regular standard list product pricing a small service charge (either a fxed amount or percentage) is applied to all sales. A discount is automatically applied when customers pay with cash or gift card. No discount is given when paying by debit card or credit card. The patented software automatically determines all discounts and actions based on payment type.
